Objective Statement

IT Support professional and U.S. Army Veteran with hands-on experience troubleshooting hardware, software, network issues, and account administration across Windows, Linux, Active Directory, and AWS. Proven ability to resolve high-volume helpdesk tickets, deliver clear customer support, and improve day-to-day operational reliability. Seeking an entry-level Helpdesk role where strong technical troubleshooting, communication, and service skills contribute to dependable user support.

Core Competencies

- Active Directory Administration
- Cloud Fundamentals, Virtual Environments, and Container platforms
- Access Control and Video Systems Support
- Networking Fundamentals (DNS, DHCP, VPN)
- Remote Support and Access Tools
- Technical Documentation and Knowledge Sharing
- Technical Troubleshooting and Root Cause Analysis
- Ticketing Systems, and Case Management
- Call center queue management fielded up to 60 calls a day
- 94% First Call Resolution (FCR)
- 15 minutes Average Handle Time (AHT)

Professional Experience

Cellgate Access Control Systems – Carrollton, TX

Production Programming Technician | Sep 2025 – Present

- Operated and prepared production equipment for programming and testing by configuring systems, loading software, and validating assemblies prior to final processing.
- Monitored equipment performance, performed diagnostics, and completed preventative maintenance.
- Troubleshot hardware, firmware, software, and configuration issues.
- Documented system configurations and test procedures for quality control.
- Achieved 98% defect-free first-pass programming quality.
- Reduced assembly rework by 25% through improved validation procedures.
- Programmed and validated configurations for 40 units per day.
- Streamlined production test procedures to improve configuration accuracy.

Technical Support Representative | Jul 2024 – Sep 2025

- Provided phone-based technical support using structured diagnostics.
- Logged and tracked cases in Salesforce for accurate documentation.
- Collaborated with internal teams on workflow and escalation improvements.
- Resolved 75 cases per week with high satisfaction.
- Shortened average resolution time by 10 minutes.
- Trained 8 new representatives on troubleshooting standards.
- Documented thousands of support resolutions for knowledge sharing.
